WOODLAND MEADOWS MHC LLC

Confidential Private Placement Memorandum

May 13, 2026

THIS CONFIDENTIAL PRIVATE PLACEMENT MEMORANDUM IS SUBMITTED TO YOU ON A CONFIDENTIAL BASIS SOLELY IN CONNECTION WITH YOUR CONSIDERATION OF AN INVESTMENT IN MEMBERSHIP INTERESTS IN WOODLAND MEADOWS MHC LLC. BECAUSE OF THE CONFIDENTIAL NATURE OF THIS PRIVATE PLACEMENT MEMORANDUM, ITS USE FOR ANY OTHER PURPOSE MIGHT INVOLVE SERIOUS LEGAL CONSEQUENCES. IT MAY NOT BE REPRODUCED IN WHOLE OR IN PART, AND IT MAY NOT BE DELIVERED TO ANY PERSON WITHOUT THE PRIOR WRITTEN CONSENT OF THE COMPANY'S MANAGER.

CONFIDENTIAL PRIVATE PLACEMENT MEMORANDUM

Offeree Name: ________________________________ Memorandum No.:____

WOODLAND MEADOWS MHC LLC

Nine Hundred Seventy-Five Thousand Dollars

($975,000)

CLASS A PREFERRED

MEMBERSHIP INTEREST UNITS

OFFERED AT $1.00 PER UNIT

Woodland Meadows MHC LLC, a Colorado limited liability company (the "Company"), organized under the Colorado Uniform Limited Liability Company Act, hereby offers (the "Offering"), by and through its Manager, Woodland Meadows MHC Manager LLC, a Colorado limited liability company, to accredited investors and a limited number of non-accredited investors, up to Nine Hundred Seventy Five Thousand (975,000) Class A Membership Interest Units (the "Class A Units") in the Company. Biographical information regarding the Manager is included in the Confidential Investment Summary (the "Investment Summary") attached hereto as **Exhibit "A"**. The securities referred to herein are being offered on a best-efforts basis to residents of Colorado and may be offered in other states.

This Offering is for membership interests in a limited liability company that intends to acquire a manufactured home community located in Canon City, Colorado and commonly known as "Woodland Meadows Manufactured Home Community" having a physical address of 1431 Walnut Street, Canon City, Colorado 81212 and hereinafter referred to as the "Property." Please see the attached Investment Summary attached hereto as **Exhibit "A"** for additional information about the Property.

For additional information regarding the Company and contents of this Confidential Private Placement Memorandum (the "Memorandum") please contact the Company at the following addresses and phone number:

The minimum investment required by each purchaser of Class A Units of the Company offered for sale hereby is Fifty Thousand Dollars ($50,000) for Fifty Thousand (50,000) Class A Units (unless the Manager in its sole determination agrees to accept a lesser amount).

The Company has sold and issued One Hundred Thousand (100,000) Class B-1 Membership Interest Units (the "Class B-1 Units") to the Manager. The Company's Members holding the Class B-1 Units shall be referred to herein as the "Class B-1 Members". The Company has sold and issued Twenty Thousand (20,000) Class B-2 Membership Interest Units that carry no voting rights (the "Class B-2 Units", which together with the Class B-1 Units are the "Class B Units") to certain parties. The Company's Members holding the Class B-2 Units shall be referred to herein as the "Class B-2 Members" (and together with the Class B-1 Members are the "Class B Members"). Substantially all of the voting control of the Company is vested in the Class B-1 Members, and the Class B-2 Members and Class A Members will have no voting control over the Company's management decisions.

The ownership and control of the Company and the manner by which cash distributions will be paid to the Class A Members and Class B Members is set forth in the Company's limited liability company operating agreement (the "Operating Agreement"), a copy of which is attached hereto as **Exhibit "B"**. A summary of such provisions is also set forth herein under the section of this Memorandum entitled "SUMMARY OF PRINCIPAL TERMS".

All subscriptions are subject to acceptance by the Company, which reserves the right, in its sole discretion and for any reason, to reject any subscription in whole or in part or to allot to any prospective purchaser less than the number of Class A Units (including partial Class A Units) subscribed for by such purchaser. Also, each prospective purchaser who decides to subscribe for Class A Units must submit an executed original of the Subscription Agreement covering the Offering (the "Subscription Agreement," a copy of which is attached hereto as **Exhibit "C"**) setting forth the number of Class A Units subscribed for by such purchaser, along with a wire or check payable to the Company for the full amount of the subscribed Class A Units.

The Class A Units are being offered only to selected qualified purchasers meeting certain suitability standards established by the Company in a private offering. See "PLAN OF DISTRIBUTION - Purchaser Suitability Standards" below.

THE PURCHASE OF THESE SECURITIES INVOLVES A HIGH DEGREE OF RISK. SEE "CERTAIN RISK FACTORS."

THE CLASS A UNITS HAVE NEITHER BEEN REGISTERED WITH NOR APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION (THE "SEC") OR ANY STATE SECURITIES COMMISSION, NOR HAS THE SEC OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS CONFIDENTIAL PRIVATE PLACEMENT MEMORANDUM ("MEMORANDUM"). ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

NEITHER THE SEC NOR ANY STATE SECURITIES COMMISSION HAS PASSED UPON THE MERITS OF OR HAS GIVEN APPROVAL TO ANY OF THE SECURITIES OFFERED HEREBY. THESE SECURITIES ARE BEING OFFERED PURSUANT TO EXEMPTIONS FROM FEDERAL AND STATE SECURITIES REGISTRATION LAWS; HOWEVER, NEITHER THE SEC NOR ANY STATE SECURITIES COMMISSION HAS NOT MADE AN INDEPENDENT DETERMINATION THAT THE SECURITIES OFFERED HEREUNDER ARE IN FACT EXEMPT FROM REGISTRATION.

	Price to Purchasers (1)	Underwriting Discounts & Commissions	Gross Proceeds to the Company (2)
Per Class A Unit	$1	$0	$1
Total (975,000 Class A Units)	$975,000	$0	$975,000

(1) The purchase price per Class A Unit or partial Class A Unit is payable upon subscription.

(2) Before deducting offering expenses and assuming the sale of all Class A Units authorized for sale hereby. We estimate the total expenses of the offering to be approximately $25,000. See "Costs and Timing of Offering."

PROSPECTIVE PURCHASERS ARE NOT TO CONSTRUE THE CONTENTS OF THIS MEMORANDUM OR ANY PRIOR OR SUBSEQUENT COMMUNICATIONS FROM THE COMPANY OR ANY OF ITS MEMBERS, AGENTS, OR EMPLOYEES, AS LEGAL OR TAX ADVICE. EACH PURCHASER SHOULD CONSULT HIS OR HER OWN LEGAL COUNSEL AND ACCOUNTANTS AS TO MATTERS CONCERNING HIS OR HER PURCHASE.

THE CLASS A UNITS ARE OFFERED SUBJECT TO ACCEPTANCE BY THE COMPANY OF SUBSCRIPTIONS BY PROSPECTIVE PURCHASERS. THE COMPANY MAY REJECT ANY SUBSCRIPTION IN WHOLE OR IN PART AND NEED NOT ACCEPT SUBSCRIPTIONS IN THE ORDER RECEIVED.

THIS MEMORANDUM DOES NOT CONSTITUTE AN OFFER TO SELL OR A SOLICITATION OF ANY OFFER TO BUY ANY OF THE CLASS A UNITS OFFERED HEREBY IN ANY JURISDICTION OR TO ANY PERSON TO WHOM IT IS UNLAWFUL TO MAKE SUCH AN OFFER OR SOLICITATION IN SUCH JURISDICTION. NO PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATION CONCERNING THIS TRANSACTION, OTHER THAN AS CONTAINED IN THIS MEMORANDUM, AND IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE COMPANY.

PRIOR TO EVALUATING THE ENCLOSED INFORMATION, EACH OFFEREE SHOULD EITHER (I) HAVE SUCH KNOWLEDGE AND EXPERIENCE IN FINANCIAL AND BUSINESS MATTERS THAT HE OR SHE IS CAPABLE OF EVALUATING THE MERITS AND RISKS OF THE DISCLOSED INFORMATION AND A PURCHASE OF THE CLASS A UNITS, OR (II) CONSULT WITH QUALIFIED PROFESSIONAL AND LEGAL ADVISORS WHO ARE CAPABLE OF EVALUATING SUCH MERITS AND RISKS FOR SUCH OFFEREE.

NEITHER THE COMPANY NOR ITS MEMBERS, MANAGER, AGENTS, OR EMPLOYEES, THEIR AFFILIATES, DIRECTORS, OFFICERS, AGENTS, OR EMPLOYEES ARE LICENSED SECURITIES BROKERS, AND HAVE NOT REGISTERED OR FILED ANY OFFERING OR INVESTMENT OPPORTUNITY WITH ANY FEDERAL OR STATE SECURITIES COMMISSION OR BOARD UNDER ANY FEDERAL OR STATE LAW REGARDING THE SALE OR PURCHASE OF CLASS A UNITS SET FORTH HEREIN. THE CLASS A UNITS OFFERED HEREBY ARE INTENDED TO BE

EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND APPLICABLE STATE SECURITIES LAWS. EACH INVESTOR WILL BE REQUIRED TO REPRESENT THAT THE CLASS A UNITS ARE BEING ACQUIRED FOR THE INVESTOR'S OWN ACCOUNT AND NOT FOR THE ACCOUNT OF OTHERS, FOR INVESTMENT PURPOSES ONLY, AND NOT WITH A VIEW TO THE SALE OR DISTRIBUTION THEREOF IN WHOLE OR IN PART. THE SALE, TRANSFER, PLEDGE, HYPOTHECATION, OR OTHER DISPOSITION OF THE CLASS A UNITS OR ANY INTEREST THEREIN MAY NOT BE ACCOMPLISHED EXCEPT IN ACCORDANCE WITH THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS; MOREOVER, COMPLIANCE WITH SUCH REQUIREMENTS MUST BE DEMONSTRATED BY AN OPINION OF COUNSEL SATISFACTORY TO THE COMPANY TO THE EFFECT THAT NEITHER REGISTRATION NOR QUALIFICATION IS REQUIRED.

IN THE EVENT THAT AN INVESTOR IS A FOREIGN PERSON, THE FOLLOWING NOTICE IS REQUIRED BY REGULATIONS UNDER THE SECURITIES ACT: HEDGING TRANSACTIONS INVOLVING THESE SECURITIES MAY NOT BE CONDUCTED UNLESS IN COMPLIANCE WITH THE SECURITIES ACT.

THE OFFEREE, BY ACCEPTING DELIVERY OF THIS DOCUMENTATION, AGREES TO RETURN IT AND ALL ENCLOSED MATERIALS TO THE COMPANY, IMMEDIATELY UPON THE REQUEST OF THE COMPANY. ANY REPRODUCTION OR DISTRIBUTION OF THIS CONFIDENTIAL INFORMATION, IN WHOLE OR IN PART, OR THE DIVULGING OF ANY OF ITS CONTENTS WITHOUT THE PRIOR WRITTEN CONSENT OF THE COMPANY IS EXPRESSLY PROHIBITED. THE COMPANY INTENDS TO MAKE AVAILABLE SUCH ADDITIONAL INFORMATION AS THE OFFEREE REASONABLY REQUESTS AND TO AFFORD EACH OFFEREE THE OPPORTUNITY TO ASK QUESTIONS OF AND RECEIVE ANSWERS FROM THE COMPANY TO THE EXTENT THE COMPANY POSSESSES SUCH INFORMATION OR CAN ACQUIRE IT WITHOUT UNREASONABLE EFFORT OR EXPENSE.

THE SUCCESS OF THE COMPANY IS DEPENDENT UPON ORGANIZATIONAL AND MANAGEMENT SKILLS OF THE INDIVIDUALS INVOLVED. TO THE EXTENT THAT THE ABILITY OF THE MANAGEMENT TEAM IS DIMINISHED, HIGHER THAN EXPECTED OPERATING COSTS AND LOWER UTILIZATION RATES COULD BE EXPERIENCED, ALL OF WHICH COULD HAVE A MATERIAL ADVERSE AFFECT ON EXPECTED BENEFITS.

THE INDUSTRY OF THE COMPANY'S BUSINESS IS SUBJECT TO THE RISKS OF UNCERTAINTY OF CASH FLOW TO MEET FIXED OBLIGATIONS, ADVERSE CHANGES IN GENERAL OR LOCAL ECONOMIC CONDITIONS, CHANGES IN GOVERNMENTAL RULES RESULTING IN RESTRICTIONS ON OPERATIONS, AND CHANGES IN FISCAL POLICIES, AS WELL AS ACTS OF GOD AND OTHER NON-CONTROLLABLE FACTORS. THESE AND OTHER RISKS MAY ADVERSELY AFFECT THE COMPANY'S BUSINESS OPERATION.

THE FINANCIAL DATA PROVIDED IN THE DISCLOSED INFORMATION WITH RESPECT TO THE COMPANY IS BASED ON INTERNAL RECORDS WHICH MAY OR MAY NOT HAVE BEEN PREPARED ACCORDING TO GENERAL ACCEPTED ACCOUNTING PRINCIPLES.

TAX RISKS OR ISSUES MAY ARISE IN THE FUTURE WHICH ARE UNFORESEEN AT THE PRESENT TIME BECAUSE OF CHANGES AND FACTUAL CIRCUMSTANCES, CHANGES IN EXISTING LEGISLATION, OR RETROACTIVE APPLICATION OF NEW LEGISLATION. THERE CAN BE NO ASSURANCE THAT CURRENT LAWS, INCLUDING FEDERAL INCOME TAX LAWS AND REGULATIONS WHICH MAY BE APPLICABLE WILL NOT BE CHANGED OR

ADVERSELY INTERPRETED. SUCH EVENTS MAY RESULT IN THE UNAVAILABILITY OR DEFERRAL OF ANTICIPATED FAVORABLE ASPECTS.

THIS MEMORANDUM CONTAINS PROJECTIONS AND OTHER FORWARD-LOOKING STATEMENTS AND INFORMATION WITH RESPECT TO PLANS, PROJECTIONS, AND FUTURE PERFORMANCE OF THE COMPANY. THERE IS NO GUARANTY OR ASSURANCE THAT THESE PLANS, PROJECTIONS OR FUTURE PERFORMANCE OF THE COMPANY AS INDICATED WILL BE ACHIEVED, AND ACTUAL RESULTS COULD DIFFER MATERIALLY. RISKS AND UNCERTAINTIES COULD MATERIALLY IMPACT THE COMPANY'S FUTURE RESULTS, INCLUDING THE RISKS DESCRIBED IN THIS MEMORANDUM UNDER "CERTAIN RISK FACTORS."

THE OFFERING PRICE FOR THE CLASS A UNITS HAS BEEN DETERMINED ARBITRARILY BY THE COMPANY. THE OFFERING PRICE IS NOT BASED ON EARNINGS AND IS NOT NECESSARILY A REPRESENTATION OF MARKET VALUE OR THAT THE CLASS A UNITS CAN BE SOLD AT THAT PRICE.

THE TRANSFER OF CLASS A UNITS WILL BE SIGNIFICANTLY RESTRICTED UNDER THE COMPANY'S OPERATING AGREEMENT, THE SUBSCRIPTION AGREEMENT, AND UNDER APPLICABLE SECURITIES LAWS. THIS MEMORANDUM CONTAINS A SUMMARY OF CERTAIN PROVISIONS OF THE DOCUMENTS RELATING TO AN INVESTMENT IN THE CLASS A UNITS, INCLUDING THE OPERATING AGREEMENT, SUBSCRIPTION AGREEMENT, AND SUMMARIES OF VARIOUS PROVISIONS OF RELATIVE STATUTES AND THE APPLICABLE REGULATIONS THEREUNDER. WHILE THE COMPANY BELIEVES THESE SUMMARIES ARE FAIR STATEMENTS OF SUCH DOCUMENTS, STATUTES, AND REGULATIONS, SUCH SUMMARIES DO NOT PURPORT TO BE COMPLETE AND ARE QUALIFIED IN THEIR ENTIRETY BY REFERENCE TO THE TEXT OF THE ORIGINAL DOCUMENTS, STATUTES, AND REGULATIONS.

PROSPECTIVE INVESTORS OR THEIR ADVISORS HAVING QUESTIONS OR DESIRING ADDITIONAL INFORMATION SHOULD CONTACT THE COMPANY AT THE FOLLOWING ADDRESS:

Explanatory Notes

The information contained herein has been prepared to assist interested parties in making their own evaluation of the Company and does not purport to contain all the information that a prospective investor may desire. The information in this Memorandum is for background purposes only and is subject to change. In all cases interested parties should conduct their own investigation, analysis and evaluation of the Company and the data set forth in this Memorandum. The information has not been independently verified and was provided by the Company and other sources deemed to be reliable.

The Company shall have no legal commitment or obligation to any prospective investor reviewing this Memorandum or making an offer to invest in the Company, unless a written Subscription Agreement and other required documentation for the investment has been fully executed, delivered and approved by the Company and any conditions to the Company's obligations under such documentation have been satisfied or waived.

References herein to "we," "us," "our," or such similar pronouns refer to the Company unless specifically noted otherwise.

I. SUMMARY

This Confidential Private Placement Memorandum (this "Memorandum") of Woodland Meadows MHC LLC (the "Company") respects its proposed private offering (the "Offering") of up to Nine Hundred Seventy Five Thousand (975,000) Class A Membership Interest Units (the "Class A Units") for gross offering proceeds equal to Nine Hundred Seventy-Five Thousand Dollars ($975,000). As of the date hereof, the Company has not sold any Class A Units. The Company will hold the initial closing (the "Initial Closing") of its sale and issuance of Class A Units in exchange for the Company's receipt of at least the minimum amount required to close on the acquisition of the Property and fund planned capital improvements of the Property as determined by the Manager in its sole discretion. If this minimum amount determined by the Manager in its sole discretion is not received, the Manager shall arrange for the return of any amounts that have been received.

The following summary regards the business of the Company and highlights information contained elsewhere in this Memorandum and the attached exhibits. It not intended to be complete and is qualified in its entirety by reference to the more detailed information appearing elsewhere in this Memorandum and the attached exhibits. Because it is a summary, it does not contain all of the information that may be important to you. Investors are encouraged to read this Memorandum and all of the attached exhibits in their entirety for a more complete explanation of the Company and this offering. Capitalized terms not defined herein shall have the same meanings given such terms in the Operating Agreement.

THE BUSINESS

The Company is a Colorado limited liability company formed for the purpose of acquiring a manufactured home community located in Canon City, Colorado and commonly known as "Woodland Meadows Manufactured Home Community" having a physical address of 1431 Walnut Street, Canon City, Colorado 81212 and hereinafter referred to as the "Property." Additional disclosure and a more detailed description of the Property, including detailed financial information and projections, and information regarding use of Offering proceeds, is set forth in the Investment Summary attached hereto as **Exhibit "A"**. The Company's business activities with respect to the Property as described in the Investment Summary shall be referred to from time to time herein as the "Business".

THE OFFERING

The Company intends to raise equity to fund the initial costs associated with acquiring the Property and undertaking certain capital improvements (as described in the Investment Summary) through its sale of its Class A Units for aggregate offering proceeds of up to Nine Hundred Seventy-Five Thousand Dollars ($975,000).

Whether the Company sells the minimum number of Class A Units authorized for sale hereby, or the maximum number of Class A Units authorized for sale, cash shall be distributed on a class-by-class basis, and with respect to distributions within each class, shall be distributed *pro rata* based on the number of Units (whether Class A Units or Class B Units) held by each Member within the class. Cash available for distribution shall be distributed as follows:

First, the Company shall pay Class A Members a fixed return equal in amount to Seven Percent (7%) per annum of each Class A Member's Unreturned Capital Contributions. Such amount distributable to the Class A Members shall be referred to as the "Class A Preferred Return". The Class A Preferred Return amounts shall be paid from available cash of the Company from operations as determined by the Manager. In the event that the total Class A Preferred Return amount is not paid in any year, the unpaid amount shall accumulate but not compound (i.e., unpaid Class A Preferred Return amounts are not counted as contributions of additional capital).

Next, Seventy Percent (70%) of cash available for distribution shall be paid to the holders of the Class A Units (the "Class A Members") and shall be distributed to the Class A Members pro rata based on the number of Class A Units held by each, and Thirty Percent (30%) of cash available for distribution shall be distributed to the Class B-1 Members based on the number of Class B-1 Units held by each and to the Class B-2 Members based on the Class B-2 Units held by each, until such time the Property is sold, refinanced, or otherwise and exit is achieved, at which time the cash available from such sale, refinancing or exit ("Exit") shall be distributed in accordance with the following paragraph.

Upon Exit after paying any unpaid amounts of Class A Preferred Return, the Company shall pay all Unreturned Capital Contributions to the Class A Members in accordance with the number of Class A Units held by each.

Thereafter, Seventy Percent (70%) of cash available for distribution shall be paid to the holders of the Class A Units (the "Class A Members") and shall be distributed to the Class A Members pro rata based on the number of Class A Units held by each, and Thirty Percent (30%) of cash available for distribution shall be distributed pro rata to the Class B-1 Members based on the number of Class B-1 Units held by each and to the Class B-2 Members based on the Class B-2 Units held by each.

The offering price per Class A Unit is $1.00, and the minimum investment amount from any investor is Fifty Thousand Dollars ($50,000) for Fifty Thousand (50,000) Class A Units.

As noted above, the Company may sell less than the maximum number of Class A Units offered. The Company may accept and close subscriptions at any time during the Offering period. For additional disclosure regarding the offering, see the section of this Memorandum entitled "THE OFFERING AND DESCRIPTION OF CLASS A UNITS."

PURCHASER QUALIFICATION

The Class A Units are being offered solely to sophisticated, high-net worth individuals meeting certain purchaser suitability standards as described further in the Subscription Agreement. Investors in the Class A Units must be "accredited investors" as such term is defined in Rule 501(a) of Regulation D promulgated by the U.S. Securities and Exchange Commission under the Securities Act of 1933, as amended (the "Securities Act"), or may be non-accredited in the Company's discretion. For further disclosure regarding the Company's sale and issuance of the Class A Units and the investor qualification standards, see the section of this Memorandum entitled "PLAN OF DISTRIBUTION." The Company is intending initially to rely on the exemption from United States federal securities registration found in Regulation D Rule 506(b) and corresponding state exemptions in each of the states where the Company's investors reside.

The Class A Units will be offered solely in reliance on the exemption from U.S. federal securities registration found in Regulation D Rule 506(b) and corresponding state-level securities registration ("Blue Sky") exemptions. The Company intends to conduct the current offering of Class A Units authorized for sale hereby in reliance on Rule 506(b) for a certain period of time, and then close the current round. Thereafter, the Company intends to conduct a second (2^{nd}) offering of the unsold Class A Units whereby it will instead rely on Rule 506(c) of Regulation D and sell the unsold Class A Units to one or more qualified third party "accredited investors" ONLY.

USE OF PROCEEDS

Assuming a fully subscribed offering, the proceeds to be received by the Company from the sale of the Class A Units in this offering are estimated to be approximately $975,000. The proceeds received from this offering will be used for the acquisition of the Property and to fund additional capital expenses as described further in the Investment Summary attached hereto as **Exhibit "A"**.

RISK FACTORS

PLEASE NOTE: PURCHASING CLASS A UNITS INVOLVES A HIGH DEGREE OF RISK.

The risks associated with an investment in the Company's Class A Units cannot be fully ascertained at this time, but certain risks associated with purchasing Class A Units are discussed generally below. See below under "CERTAIN RISK FACTORS," which should be read carefully by a purchaser prior to subscribing for Class A Units. Each offeree is advised to consult his or her own advisors with respect to these risk factors.

II. THE MANAGEMENT

The Company was formed as a Colorado limited liability company under the name "Woodland Meadows MHC LLC". The Manager of the Company is Woodland Meadows MHC Manager LLC, a Colorado limited liability company. The Manager owns all of the Company's Class B-1 Units and other individuals own all of the Class B-2 Units, and together are the only Class B Members. Management and voting control resides with Class B-1 Members because of their ownership of the Class B-1 Units. The Class A Members should not expect to take any part in the day-to-day management affairs of the Company.

Biographical information for members of the Company's Manager and certain other service providers to the Company is set forth in the Investment Summary attached hereto as **Exhibit "A"**.

Manager Fees

In addition to the distributions of Company available cash to Class B-1 Members, the Company also shall pay the Manager or such persons as the Manager may direct the following fees as expenses of the Company:

(i) A quarterly asset management fee (the "Asset Management Fee") paid quarterly in arrears in an amount equal to Five Percent (5%) of the gross income per quarter.

Construction Management

We intend to use unrelated third parties to perform capital improvement and other construction services associated with our development of the Property. All construction costs are expenses of the Company and included in our financial projections set forth in the Investment Summary attached hereto as **Exhibit "A"**.

Related Party Transactions

We may utilize the services of other persons who are related to the Company and its Managers. These arrangements also create a potential for conflicts of interest, but the Company will only retain such related parties to perform ordinary and necessary services required by the Company and its Business on terms that are determined commercially reasonable by the Company and its Manager.

****

None of the economic benefits accruing to the Manager from the Company were negotiated in an arms' length transaction. Nevertheless, the Manager has determined that the amounts payable to it under economic arrangements with the Company have been disclosed to potential investors and are commercially reasonable, considering the technical requirements for managing the project being undertaken by the Business, the amount of time that will be required of the Manager in the discharge of their duties to the Company and the Business, and the risk of nonpayment of Company debt obligations that the Manager or their related parties may be required to guarantee on behalf of the Company. For additional disclosure regarding the compensation to the Manager and potential conflicts of interest issues, see the section of this Memorandum entitled "THE MANAGEMENT."

The Manager will control all aspects of the Company's day-to-day business operations. The Members (in their capacity as such) will not participate in the management of the Company and must rely entirely on the skill and judgment of the Manager to implement the business plan described herein. The Members (in their capacity as such) may not have access to the site where the Business is located without being accompanied by the Manager.

The foregoing summary of terms is qualified in its entirety by the Operating Agreement of the Company, a copy of which is attached as **Exhibit "B"**.

REIMBURSEMENT OF EXPENSES; CONTRACTORS

The Manager and its affiliated entities will be entitled to reimbursement from Offering proceeds received from the Class A Members for all out-of-pocket costs and certain expenses incurred on behalf of the Company in connection with the pursuit of the Company's investment objectives prior to the date that any investment funds were accepted from third-party investors.

The Manager intends to contract on behalf of the Company with third parties to undertake and complete certain of the Business's activities. Such persons will serve as contractors to the Company that will charge the Company commercially reasonable rates.

INDEMNIFICATION

The Operating Agreement requires the Company to indemnify the Manager, its affiliates and all other persons acting under their direction and control against all liabilities, costs and expenses arising out of any matter in which such indemnified party was an authorized representative of the Company.

III. FINANCIAL PROJECTIONS AND FORWARD-LOOKING STATEMENTS

The Company's financial projections are based upon the Manager's past experiences and upon its analysis of the market opportunity for the Company in its implementation of the Business. Our budgets and projections for the Business are included in the Investment Summary attached hereto as **Exhibit "A"** and include a discussion regarding our projected costs of operation of the Business. The financial projections included herein and in the Investment Summary (the "Financial Projections") have been prepared by management of the Company, may not have been prepared in accordance with generally accepted accounting principles, and have not been reviewed or audited by a certified public accountant. Each prospective purchaser should consult his own tax counsel and accountant as to the tax matters and economic benefits set forth in this Memorandum and the Financial Projections. Nothing contained in this Memorandum or the Financial Projections is, nor should it be taken as, legal, financial or tax advice. Any prospective financial or business information contained in this Memorandum represents projections of future events which may or may not occur. They are based on assumptions which may or may not prove to be accurate and should not be relied upon to indicate the actual results which might be obtained by the Company.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements included in this Memorandum which are not historical facts (including any statements concerning investment objectives, economic updates, other plans and objectives of the Company or the Manager for future operations or economic performance, or assumptions or forecasts related thereto) are forward-looking statements. These statements are only predictions. Forward-looking statements are not guarantees. Actual events and the results of the Company's business operations could differ materially from those expressed or implied in the forward-looking statements. Forward-looking statements are typically identified by the use of terms such as "may," "should," "expect," "could," "intend," "plan," "anticipate," "estimate," "believe," "continue," "predict," "potential" or the negative of such terms and other comparable terminology.

The forward-looking statements included herein are based on the Manager's current expectations, plans, estimates, assumptions and beliefs that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the Company's or the Manager's control. Any of the assumptions underlying the forward-looking statements could be inaccurate. You are cautioned not to place undue reliance on any forward-looking statements included in this Memorandum. All forward-looking statements are made as of the date of this Memorandum and the risk exists that actual results will differ materially from the expectations expressed in this Memorandum and this risk will increase with the passage of time. In light of the significant uncertainties inherent in the forward-looking statements included in this Memorandum, including, without limitation, the risks set forth in the "Risk Factors" section, the inclusion of such forward-looking statements should not be regarded as a representation by us or any other person that the objectives and plans set forth in this Memorandum will be achieved. All subsequent written and oral forward-looking statements attributable to us or to persons acting on the Company's or the Manager's behalf are expressly qualified in their entirety by reference to these risks and uncertainties. Each forward-looking statement speaks only as of the date of the particular statement, and neither the Company nor the Manager undertakes any obligation to publicly update or revise any forward-looking statements.

See the section of this Memorandum entitled "CERTAIN RISK FACTORS" for additional disclosure regarding the risks associated with an investment in the Class A Units.

IV. THE OFFERING AND DESCRIPTION OF CLASS A UNITS

The Company hereby offers to sell (the "Offering") to qualified third-party investors Nine Hundred Seventy-Five Thousand (975,000) of its Class A Units at a price of $1.00 per Class A Unit for gross Offering proceeds of $975,000. The Company will issue whole Class A Units to investors but may also issue partial Class A Units in its sole discretion. The total cost of each Class A Unit is payable in immediately available funds, upon subscription, by wire transfer to the bank account directed by the Company, or if acceptable to the Company, by check. The Class A Members, as third-party investors, must meet certain suitability standards. See "PLAN OF DISTRIBUTION - PURCHASER SUITABILITY STANDARDS," below. The Offering will continue indefinitely unless earlier terminated in the sole discretion of the Company.

The initial closing (the "Initial Closing") will be held immediately upon the Company's sale and issuance of Nine Hundred Seventy-Five Thousand (975,000) Class A Units for offering proceeds of Nine Hundred Seventy-Five Thousand Dollars ($975,000), or at least the minimum number of Class A Units necessary for the Company to acquire the Property and implement its business plans (the "Minimum Offering Proceeds," with the precise amount to be determined by the Manager in its discretion). Following the Initial Closing, the Company will deploy offering proceeds immediately in accordance with its investment objectives described herein.

Subscriptions will be accepted and approved in writing by the Company from time to time during the Offering period. At its discretion, the Company may choose to accept subscriptions one at a time as they are received. In any case, once acceptable subscriptions for Nine Hundred Seventy-Five Thousand (975,000) Class A Units are received (or at least the Minimum Offering Proceeds), this Offering will terminate, unless earlier terminated by the Company in its sole discretion.

Potential investors of any Class A Units must understand and acknowledge that all or substantially all of the voting control of the Company's Business is held by the Class B-1 Members, being the Manager or entities that it controls. The Class A Members will have little to no voting control over the Company's Business.

COMPANY ORGANIZATIONAL DOCUMENTS

The relevant documents related to the organization of the Company are (i) the Company's Articles of Organization, and (ii) the Operating Agreement (collectively, the "Organizational Documents"). A copy of the Company's Operating Agreement and the Subscription Agreement are attached hereto as **Exhibits "B"** and **"C"**, respectively. The Organizational Documents and the Subscription Agreement include all the terms and conditions of the organization of the Company and govern the specific terms of your investment. Certain significant aspects of the Operating Agreement are summarized below. The summaries below are qualified in their entirety by the Operating Agreement.

CAPITAL CONTRIBUTIONS

No Member shall be required to make any additional Capital Contributions to the Company beyond the amount paid as the Member's initial Capital Contribution. Any future Capital Contributions made by any Member shall only be made with the consent of the Manager and in connection with the issuance of the additional Membership Interest Units made in compliance with the Operating Agreement. Any other advance of funds to the Company by a Member shall be considered a loan.

No Member shall be required to lend any funds to the Company and no Member shall have any personal liability for the payment or repayment of any Capital Contribution by or to any other Member, or for payment or repayment of any Company debt (unless guaranteed by the Member by separate agreement).

EVIDENCE OF OWNERSHIP OF COMPANY INTERESTS

Members will not receive certificates evidencing the ownership of their respective Class A Units. Each Member will receive a counter-signed Subscription Agreement reflecting the Manager's acceptance of such Member's investment in the Class A Units, and the Members' ownership of such Class A Units will be maintained in the books and records of the Company.

CONTROL OF THE COMPANY

Purchasers of the Class A Units will have the status of Members in the Company but will have little to no control over the management or conduct of the affairs of the Company. The Manager will have the sole and absolute right and authority to act for and on behalf of the Company and in connection with all aspects of the business and operations of the Company. The Operating Agreement shall provide that the Class B-1 Members (i.e., Members of the Company owning the Class B-1 Units) have the right to elect the Manager of the Company, and the Class A Members (i.e., Members of the Company owning the Class A Units) and the Class B-2 Members (the Members owning the Class B-2 Units) shall not have the right to remove or elect the Manager. Members will be bound by all agreements made by the Manager on behalf of the Company. The Manager will have no liability to the Company or the Members except in the case of bad faith, willful misconduct, fraud, breach of a duty of care or loyalty, or breach of an express provision of the Operating Agreement. The Manager will have a duty of care and a duty of loyalty to the Company and the other members in accordance with the Colorado Uniform Limited Liability Company Act (the "Act").

The Manager has the right and broad discretion to determine whether additional cash capital calls will be made to finance the Company's continuing business operations.

Members of the Company will not be required to be liable for the debts, obligations, or liabilities of the Company except by separate guarantee of the Members.

DISTRIBUTIONS AND ALLOCATIONS

Net income and net loss of the Company will be generally allocated each Fiscal Year among the Members in a manner such that the Capital Account Balance of each Member immediately after making such allocations will equal as nearly as possible the Distributions that would be made to each member if the Company were dissolved, its affairs wound up, its assets sold for cash and its liabilities satisfied. This method of allocation is sometimes referred to as the "Targeted Capital Account Method." Each Member must report the amount of income or loss allocated to him on his individual income tax return. This could result in a Member having a tax liability even though the Member receives no cash distributions from the Company. See the section of this Memorandum entitled "Certain Income Tax Risks and Consequences" for additional information regarding the tax treatment of an investment in the Class A Units.

First, the Company shall pay Class A Members a fixed return equal in amount to Seven Percent (7%) per annum of each Class A Member's Unreturned Capital Contributions. Such amount distributable to the Class A Members shall be referred to as the "Class A Preferred Return". The Class A Preferred Return amounts shall be paid from available cash of the Company from operations as determined by the Manager. In the event that the total Class A Preferred Return amount is not paid in any year, the unpaid amount shall accumulate but not compound (i.e., unpaid Class A Preferred Return amounts are not counted as contributions of additional capital).

Next, Seventy Percent (70%) of cash available for distribution shall be paid to the holders of the Class A Units (the "Class A Members") and shall be distributed to the Class A Members pro rata based on the number of Class A Units held by each, and Thirty Percent (30%) of cash available for distribution shall be distributed to the Class B-1 Members based on the number of Class B-1 Units held by each and to the Class

B-2 Members based on the Class B-2 Units held by each, until such time the Property is sold, refinanced, or otherwise and exit is achieved, at which time the cash available from such sale, refinancing or exit ("Exit") shall be distributed in accordance with the following paragraph.

Upon Exit after paying any unpaid amounts of Class A Preferred Return, the Company shall pay all Unreturned Capital Contributions to the Class A Members in accordance with the number of Class A Units held by each.

Thereafter, Seventy Percent (70%) of cash available for distribution shall be paid to the holders of the Class A Units (the "Class A Members") and shall be distributed to the Class A Members pro rata based on the number of Class A Units held by each, and Thirty Percent (30%) of cash available for distribution shall be distributed to the Class B-1 Members based on the number of Class B-1 Units held by each and to the Class B-2 Members based on the Class B-2 Units held by each.

BOOKS AND RECORDS

The books and records of the Company will be kept at the principal office of the Company. Each Member will have access thereto in accordance with the Act at all reasonable times and may make copies at their own expense. The books of account are intended to be kept in accordance with the cash method of accounting. The Manager will furnish each Member with an unaudited balance sheet, cash flow statement, income statement, and a statement of changes in Member's capital of the Company for each year in accordance with the terms of the Operating Agreement.

DISPOSITIONS OR TRANSFERS OF COMPANY INTERESTS

The disposition or transfer of Class A Units (or any Membership Interests) in the Company is substantially restricted and any such disposition or transfer must be made in strict accordance with the Operating Agreement, as amended, and federal and state securities laws and rules. Any attempted transfer that is not in strict accordance with the Operating Agreement, as amended, will be null and void. A Member may not sell, assign, transfer, convey, gift, exchange, or dispose of in any way all or any portion of his Membership Interests without the consent of the Manager.

CONFLICTS OF INTEREST

The Company's Manager and its respective affiliates and related parties may own interests in other real estate businesses, including multi-family properties and real estate developments that compete with the Business in other markets. Certain conflicts of interests between the Company, the Manager, its affiliates, and/or such other businesses could arise in any of such instances. If any transactions are entered into with parties related to the Manager, the Manager intends for such transactions to be on terms not more favorable to their economic interests than the terms that could be obtained generally in the market through arms' length negotiations.

We may utilize the services of other persons who are related to the Company and its Manager. These arrangements also create a potential for conflicts of interest, but the Company will only retain such related parties to perform ordinary and necessary services required by the Company and its Business on terms that are determined commercially reasonable by the Company and its Manager.

DEBT FINANCING

As noted above, the Company will use indebtedness to finance a portion of the total Business costs. The Company may, upon a determination by the Manager, borrow money and enter into agreements with financial institutions or other persons or entities to provide debt financing (whether secured by the

Company's assets, including the Property, or unsecured), lease financings, or other types of financing for the Company, and shall have the authority to incur such debt without the consent of the Class A Members.

ALTERNATIVE DISPUTE RESOLUTION

The resolution of any and all disputes among the Members and the Company must be attempted first through good faith negotiation between the parties. If such disputes are unresolved through negotiations, then such disputes shall be submitted to mediation. Finally, if the dispute remains unresolved through mediation then such dispute shall be submitted to BINDING ARBITRATION through the American Arbitration Association or as agreed upon by the parties with the arbitration taking place in Austin, Texas.

V. USE OF PROCEEDS

The gross proceeds to be received by the Company from the sale of all of Class A Units authorized for sale in this Offering is Nine Hundred Seventy-Five Thousand Dollars ($975,000). The Company may elect to sell less than all of the Class A Units authorized for sale hereunder. The proceeds received from this offering will be used for the acquisition of a the Property, and payment of planned capital and other expenditures as described in the Investment Summary attached hereto as **Exhibit "A"**.

VI. DETERMINATION OF OFFERING PRICE

There is no established trading market for the Class A Units nor is one expected to develop. The offering price of $1.00 per Class A Unit was arbitrarily determined by the Company. The Offering price does not necessarily have any relationship to earnings, the actual value of the Company's assets, or the actual market value of the Class A Units.

VII. SUMMARY OF PRINCIPAL TERMS

The following Summary of Principal Terms governing a Member's investment in the Company is qualified in its entirety and should be read in connection with the Operating Agreement and the Subscription Agreement of Woodland Meadows MHC LLC, an Colorado limited liability company, the forms of which are attached hereto as **Exhibit "B"** and **Exhibit "C",** respectively.

Capitalized terms not otherwise defined herein shall have the same meanings given such terms in the Operating Agreement of the Company.

The Company:	Woodland Meadows MHC LLC is a newly formed limited liability company organized under the laws of the State of Colorado. The Company will commence operations on or after April 27, 2026.
Investment Objective:	The investment objective of the Company is to acquire a manufactured home community located in Canon City, Colorado and commonly known as "Woodland Meadows Manufactured Home Community" having a physical address of 1431 Walnut Street, Canon City, Colorado 81212, and to undertake certain capital improvements with respect to the Property. The Company's business plans are set forth in the Investment Summary attached hereto as **Exhibit "A"**.
Internal Revenue Code Section 1031 Exchange Disclosure:	While a tenancy-in-common interest is eligible for tax-deferred treatment under Section 1031 of the Internal Revenue Code of 1986, as amended (the "Code"), investors in the Class A Units should be aware that the Class A Units are deemed personal property, and are not eligible for tax-deferred treatment. Consequently, if investors are purchasing Class A Units with proceeds from the sale of real property, the sale of the real property will be taxable in the year of sale.
Manager:	The Company will be managed by its Manager, Woodland Meadows MHC Manager LLC, a Colorado limited liability company. Additional information about the managers of the Manager, Ms. Kimberly Coutee Dandurant, Ms. Holly Arredondo and Mr. Anthony White, and other service providers of the Manager, is set forth in the Investment Summary. The Manager will exercise exclusive control over the day-to-day management of the business affairs of the Company. No Member in its capacity as such shall take part in the management of the Company.
Capital Contributions Sought:	The Company is seeking a maximum of $975,000 in Capital Contributions from qualified investors in exchange for the Company's sale and issuance of its Class A Membership Interest Units (the "Class A Units" or "Units") for a per Unit price of $1.00. The minimum Capital Commitment to the

	Company for any Member will be $50,000 for Fifty Thousand (50,000) Units, although the Manager reserves the right to modify this amount in its sole discretion. The minimum amount of Class A Units required to be sold prior to the Manager utilizing any Offering proceeds is an amount sufficient for the Company to acquire the Property and fund the planned capital expenditure costs in connection therewith, as such amount is determined by the Manager in its sole discretion. The maximum amount that the Company believes it will need for the foregoing purposes is the amount it would receive upon a sale of all Nine Hundred Seventy-Five Thousand (975,000) Units authorized for sale hereunder, $975,000.
Eligible Investors:	The Class A Units being sold hereunder may be purchased only by investors who qualify as "accredited investors" as defined in the Company's Subscription Agreement, and to a limited number of qualified non-"accredited investors". The Class A Units will be offered solely in reliance on the exemption from U.S. federal securities registration found in Regulation D Rule 506(b) and corresponding state-level securities registration ("Blue Sky") exemptions. The Company intends to conduct the current offering of Class A Units authorized for sale hereby in reliance on Rule 506(b) for a certain period of time, and then close the current round. Thereafter, the Company intends to conduct a second (2nd) offering of the unsold Class A Units whereby it will instead rely on Rule 506(c) of Regulation D, and sell the unsold Class A Units to one or more qualified third party "accredited investors" ONLY. To comply with the United States Patriot Act requirements, the Company may require additional information as necessary and as described in the Subscription Agreement, and the Company reserves the right to reject any investor for any reason or for no reason in its sole discretion.
Subscriptions; Initial Closing:	The Company will hold the initial closing of the Company's sale and issuance of its Units (the "Initial Closing") immediately upon the Company's receipt of at least $975,000, or at least the minimum amount in exchange for Class A Units necessary to close on the Property and finance planned capital expenditures and other expenses.
Subscription Process:	Members purchasing Class A Units shall do so pursuant to the procedures set forth in the form Subscription Agreement attached hereto as **Exhibit "C"**.
Leverage:	The Company intends to combine the Offering proceeds with leverage (indebtedness) to finance the acquisition of the Property and planned capital expenditures. Please see the Investment Summary for detailed description of the Company's intended use of Offering proceeds.

Affiliated Investors: The Company, its principals and/or their affiliates may make an initial commitment to the Company's investment program, either through an investment in the Company, through co-investment arrangements, or through waiver of fees otherwise due and payable to the Manager by the Company, in exchange for Class A Units having a fair market value equal to the fair market value contributed by such affiliated investors. Such affiliated investors do not bear the Asset Management Fee and other fees and profit sharing in favor of the Manager but do share pro rata in all other applicable expenses.

Term: The term of the Company is indefinite although the Manager has projected a 5-year hold period for the Property. The Company retains discretion to sell or refinance the Property during the time period that the Property is an asset of the Company, and the Company may elect to sell the Property at any time.

Fund Expenses; Manager Overhead: The Company bears the expenses of its organization and the offering of Class A Units (including legal and accounting fees, printing costs, travel, "blue sky" filing fees and expenses and out-of-pocket expenses).

The Company bears all costs and expenses directly related to its investment program, including without limitation expenses related to underwriting and private placements, interest on debt balances or borrowings, and professional services fees charged by consultants.

The Company also bears all out-of-pocket costs related to its administration, including accounting, audit and legal expenses, costs of any litigation or investigation involving the Company's activities, and costs associated with reporting and providing information to existing and prospective Members. However, the Manager may, in its sole discretion, choose to absorb any such expenses incurred on behalf of the Company.

The Company does not have its own employees or office and does not pay or reimburse the Manager for salaries, office rent and other general overhead costs of the Manager.

Expenses of the Company may include reimbursement of Manager or its affiliated entities for expenses incurred, or payments for services rendered in connection with the organization of the Company prior to the time that any investment proceeds were received from Members purchasing Class A Units.

Manager Fees: In consideration for their investment and asset management services to the Company, the Company will pay the Manager or such persons as the Manager may direct the following amounts:

(i) A quarterly asset management fee (the "Asset Management Fee") paid quarterly in arrears in an amount equal to Five Percent (5%) of the gross income per quarter.

In addition to the foregoing fees, the Manager or its affiliated entities are entitled to share in the profits of the Company as Members of the Company holding the Class B-1 Units.

Use of Affiliates Services; Related Party Transactions:

The Manager may retain one or more of their affiliates to perform services for the Company on terms no less favorable to the Company than those available from unaffiliated third parties for a comparable level of quality and service.

For additional information about related-party transactions, please see above under "Conflicts of Interest - Related Party Transactions."

Cash Distributions:

The Company will make distributions of Available Cash in such amounts as the Manager shall determine; provided, however, the Manager will retain cash to pay for the Company's operating expenses, establishing appropriate reserves for capital expenditures, contingent liabilities, and such other purposes deemed necessary by the Manager.

The Company may make distributions in-kind in the sole discretion of the Manager.

All cash available for distribution by the Company shall be distributed to the Members as follows:

1. First, the Company shall pay Class A Members a fixed return equal in amount to Seven Percent (7%) per annum of each Class A Member's Unreturned Capital Contributions. Such amount distributable to the Class A Members shall be referred to as the "Class A Preferred Return". The Class A Preferred Return amounts shall be paid from available cash of the Company from operations as determined by the Manager. In the event that the total Class A Preferred Return amount is not paid in any year, the unpaid amount shall accumulate but not compound (i.e., unpaid Class A Preferred Return amounts are not counted as contributions of additional capital).

Next, Seventy Percent (70%) of cash available for distribution shall be paid to the holders of the Class A Units (the "Class A Members") and shall be distributed to the Class A Members pro rata based on the number of Class A Units held by each, and Thirty Percent (30%) of cash available for distribution shall be distributed to the Class B-1 Members based on the number of Class B-1 Units held by each and to the Class B-2 Members based on the Class B-2 Units held by each, until such time the Property is sold, refinanced, or otherwise and exit is achieved, at which time the cash available from such sale, refinancing or exit ("Exit") shall be distributed in accordance with the following paragraph.

Upon Exit after paying any unpaid amounts of Class A Preferred Return, the Company shall pay all Unreturned Capital Contributions to the Class A Members in accordance with the number of Class A Units held by each.

Thereafter, Seventy Percent (70%) of cash available for distribution shall be paid to the holders of the Class A Units (the "Class A Members") and shall be distributed to the Class A Members pro rata based on the number of Class A Units held by each, and Thirty Percent (30%) of cash available for distribution shall be distributed pro rata to the Class B-1 Members based on the number of Class B-1 Units held by each and to the Class B-2 Members based on the Class B-2 Units held by each.

Allocation of Income, Expenses, Gains and Losses: Income, expenses, gains and losses of the Company will generally be allocated among the Members in a manner consistent with the distribution of proceeds described in "Distributions" above.

Tax Distributions: The Company does not intend to make distributions to Members to satisfy tax liabilities associated with their ownership of the Class A Units. The Members may be required to pay for the tax liability associated with allocations of net income and gain from the Class A Units from their own funds.

Withdrawals: Generally, Members may not withdraw from the Company prior to conclusion of its term or upon its dissolution, whichever is later. In addition, Members may not transfer any of their Class A Units, rights or obligations under the Operating Agreement except with the consent of the Manager, which may provide or withhold consent in their sole discretion.

The Manager reserves the right, in its sole discretion, to compel the withdrawal of any Member's interest in the Company, in part or in its entirety, as of the end of an accounting period on not less than 30 days' prior written notice (or not less than five days' prior written notice if the Manager determines in its sole discretion that such Member's continued participation in the Company may cause the Company or the Manager to violate any applicable law).

Dissolution and Liquidation: Dissolution of the Company will occur at the conclusion of its term, and may occur upon the occurrence of other events, including without limitation any event which results in the Manager ceasing to be the Manager of the Company. Upon the occurrence of any such event, the Manager (or a liquidator elected by a majority in interest of the Members, if the Manager is unable to perform this function) is charged with winding up the affairs of the Company, liquidating its assets to the extent feasible and making liquidating distributions pro rata in accordance with the distribution schedule set forth above and otherwise in accordance with the Operating Agreement.

Transfers:

With certain exceptions set forth in the Operating Agreement, Class A Units are not transferable except with the prior written consent of the Manager, which consent may be withheld in the Manager's sole discretion. In addition to any other terms or conditions the Manager may choose in its sole discretion to impose on such transfer, the Manager will not permit the transfer of any Member's interest unless it receives an opinion of counsel from such Member in form and substance satisfactory to the Manager and its counsel to the effect that such transfer will not constitute a violation of any applicable federal or state securities laws. The Manager will require any transferee or assignee of any Member to agree in writing to be bound by the Operating Agreement.

Duty of Care; Indemnification:

The Operating Agreement provides that the Manager and its affiliates are not liable to the Company or the Members for any loss or damage arising by reason of being or having been the Manager or from any acts or omissions in the performance of its services as a manager in the absence of willful misconduct, recklessness, or gross negligence or as otherwise required by law, and contains provisions for the indemnification of the Manager, its affiliates, and their service providers by the Company (but not by the Members individually) against any liabilities arising by reason of being or having been the Manager or in connection with the Operating Agreement or the Company's business or affairs to the fullest extent permitted by law. The Manager is not personally liable to any Member for the repayment of any positive balance in such Member's capital account or for contributions by such Member to the capital of the Company or by reason of any change in the federal or state income tax laws applicable to the Company or its investors.

Non-Exclusivity; Allocation of Opportunities:

None of the officers, Manager, members, employees or affiliates of the Company or the Manager are precluded from engaging in or owning an interest in other business ventures or investment activities of any kind, whether or not such ventures are competitive with the Company.

The Operating Agreement requires that the Manager act in a manner that it considers fair, reasonable and equitable with respect to the Company and the Members; provided however, the Operating Agreement does not impose any specific obligations or requirements concerning the allocation of time, effort or investment opportunities to the Company or any restrictions on the nature or timing of investments for the account of the Company and for the Manager's own accounts or for other accounts that the Manager or its affiliates may manage. The Manager is not obligated to devote any specific amount of time to the affairs of the Company and is not required to accord exclusivity or priority to the Company with respect to investment opportunities.

Situations may occur where the Company could be disadvantaged because of the investment activities conducted by the Manager for its own or other investment accounts.

For additional disclosure regarding the allocation of trades between the Company and other accounts managed by the Manager and its affiliates, please see the section of this Memorandum entitled "Conflicts of Interest – Allocation of Trades."

Fiscal Year: The Company has a fiscal year ending on December 31 of each calendar year.

Reports to Members: The Company furnishes to its Members as soon as practicable (but no later than ninety (90) days) after the end of each taxable year and no later than sixty (60) days after the end of each fiscal quarter, reports containing financial statements as well as such tax information as is necessary for each Member to complete federal and state income tax or information returns, along with any other tax information required by law. The Manager selects the Company's independent accountants in its sole discretion.

The Manager will endeavor to provide Members with estimates of the taxable income or loss allocated to their investment in the Company with respect to any fiscal year on or before April 15 of the immediately following fiscal year, but since final Schedules K-1 will not be available, Members in all likelihood will be required to obtain extensions of the filing date for their income tax returns at the federal, state and local levels.

Tax Status: The Company itself should not be subject to U.S. federal income taxation. Each Member otherwise subject to U.S. federal income tax is required to include in such Member's taxable income such Member's share of the Company's income and gains, when realized by the Company (regardless of cash distributions from the Company to such Member), and may claim, to the extent allowable, such Member's share of the Company's losses and deductions. Due to the nature of the Company's activities, the Company's income or loss for U.S. federal income tax purposes for a particular taxable period may differ from its financial or economic results. The deductibility of a Member's share of any Company losses or deductions may be limited. See Appendix B for a discussion of the tax consequences associated with an investment in the Company.

ERISA: The Manager intends to use reasonable best efforts to either (i) prohibit plans subject to Title I of the U.S. Employee Retirement Income Security

Act of 1974, as amended ("ERISA"), or Section 4975 of the Code from investing in the Company or (ii) provide that investment by "benefit plan investors" in the Company will not be "significant." The Company also may qualify under an "operating company" exemption from the "Plan Asset" rules found under regulations promulgated under ERISA by the U.S. Department of Labor.

Amendment of the Operating Agreement: The Operating Agreement may be amended by written agreement of Members holding all of the Membership Interests of the Company, regardless of whether such interests are Class A Units or Class B Units.

Notwithstanding the foregoing, the Manager may amend the Operating Agreement without the consent of any Member at any time (i) to comply with applicable laws and regulations; (ii) to make changes that do not adversely affect the rights or obligations of any Member; (iii) to cure any ambiguity or correct or supplement any conflicting provisions of the Operating Agreement; or (iv) with respect to any other amendment, if any Member objecting to such amendment has an opportunity to withdraw from the Company as of a date that is not less than forty-five (45) days after the Company has furnished written notice of such amendment to each Member and that is prior to the effective date of the amendment.

The Company has the absolute discretion to agree with a Member to waive or modify the application of any provision of the Operating Agreement with respect to such Member, without obtaining the consent of any other Member (other than a Member who is materially and adversely affected by such waiver or modification).

Legal Counsel: Ferguson, Braswell, Fraser and Kubasta, PC, Austin, Texas, serves as legal counsel to the Company.

VIII. CERTAIN RISK FACTORS

A purchase of the Class A Units involves a high degree of risk. Prospective purchasers in the Class A Units should carefully consider the risk factors discussed below, among others. The following discussion of risk factors is not exhaustive. All risks associated with a purchase of the Class A Units cannot be fully anticipated, described or quantified at this time. Prospective purchasers are encouraged to discuss with the Company any other factors that may occur to them. Prospective purchasers are also encouraged and advised to discuss these risk factors with their attorneys, accountants, and other advisors. ***Any of the risks discussed or contemplated herein could result in the complete loss of the investment capital.***

LIMITED BUSINESS HISTORY

The Company is in the start-up stage and its operations are subject to all of the risks inherent in the establishment of a new business enterprise, including the absence of any material operating history. The likelihood of the success of the Company must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in the formation of a new business.

MANAGEMENT AND GROWTH

The success of the Company is dependent entirely on the organizational and management skills of the individuals managing the Business, namely, the Company's Manager identified herein. To the extent that the ability of the management team is diminished, operating costs could increase and revenue could decrease. The Company's Manager is Woodland Meadows MHC Manager LLC, a Colorado limited liability company which in turn is managed by Ms. Kimberly Coutee Dandurant, Ms. Holly Arrendondo and Mr. Anthony White, each a resident of Texas. The Manager has a succession plan in place in respect of the Business and Woodland Meadows MHC Manager LLC, but the loss of the services of either person could have a material adverse effect on the Company's Business.

COMPETITION

The Business in which the Company is engaged is highly competitive with respect to price, service, location and quality, and is often affected by changes in consumer tastes, economic conditions, and population and traffic patterns. The Business competes with both nationally- and locally owned family property owners, managers, and developers, some of which may operate more projects and developments, and have greater financial resources and longer operating histories than the Business. Lastly, increased competition could result in lower profits than the Company anticipates.

POSSIBLE FLUCTUATIONS IN OPERATING RESULTS

The Company's operating results may fluctuate significantly from period to period as a result of a variety of factors, including purchasing patterns of customers, competitive pricing, debt service and principal reduction payments, and general economic conditions. Consequently, the Company's revenues may vary by quarter, and the Company's operating results may experience fluctuations.

RISKS OF BORROWING:

Because the Company will incur indebtedness, a portion of its cash flow will be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants which may impair the Company's operating flexibility, which may include, among other things, restrictions against the sale or transfer of any Units. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of owners of Class A Units or Class B Units of the

Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

The Company may acquire properties subject to existing financing or by borrowing funds. The Company may also incur or increase its indebtedness by obtaining loans secured by certain of its properties in order to use the proceeds for acquisition of additional properties. In general, for any particular property, the Company will expect that the property's cash flow will be sufficient to pay the cost of its mortgage indebtedness, in addition to the operating and related costs of the property. However, if there is insufficient cash flow from the property, the Company may be required to use funds from other sources to make the required debt service payments, which generally would reduce the amount available for distribution to Members. The incurrence of mortgage indebtedness increases the risk of loss from the Company's investments since one or more defaults on mortgage loans secured by its properties could result in foreclosure of those mortgage loans by the lenders with a resulting loss of the Company's investment in the properties securing the loans. For tax purposes, a foreclosure of one of the Company's properties would be treated as a sale of the property for a purchase price equal to the outstanding balance of the indebtedness secured by the mortgage. If that outstanding balance exceeds the Company's tax basis in the property, the Company would recognize a taxable gain as a result of the foreclosure, but it would not receive any cash proceeds as a result of the transaction.

Mortgage loans or other financing arrangements with balloon payments in which all or a substantial portion of the original principal amount of the loan is due at maturity, may involve greater risk of loss than those financing arrangements in which the principal amount of the loan is amortized over its term. At the time a balloon payment is due, the Company may or may not be able to obtain alternative financing on favorable terms, or at all, to make the balloon payment or to sell the property in order to make the balloon payment out of the sale proceeds. If interest rates are higher when the Company obtains replacement financing for its existing loans, the cash flows from its properties, as well as the amounts the Company may be able to distribute to Investor Members, could be reduced. In some instances, the Company may only be able to obtain recourse financing, in which case, in addition to the property or other investment securing the loan, the lender may also seek to recover against the Company's other assets for repayment of the debt. Accordingly, if the Company does not repay a recourse loan from the sale or refinancing of the property or other investment securing the loan, the lender may seek to obtain repayment from one or more of such other assets.

ADDITIONAL FINANCING

We cannot be certain that additional financing will be available on reasonable terms when required or at all. From time to time, we may need additional financing. Our ability to obtain additional financing, if and when required, will depend on investor demand, our operating performance, the condition of the capital markets, and other factors. Our inability to obtain financing if needed could impair our expected results of operations.

CLAIMS

As with other businesses, the Company may be subject to various third-party claims, the cost of which cannot be anticipated in advance. Such claims might include, for example, allegations of damages resulting from employment discrimination, breach of contract, premises liability, product liability, personal injury, sexual harassment and other matters that cannot be predicted. Even if such claims are meritless, the Company may incur expenses in defending against or settling them. The Company will maintain liability insurance in amounts and with deductibles determined by the Company to be reasonable under the circumstances.

CONTINUED CONTROL BY MANAGER

After completion of this Offering, the Manager will continue to exercise control over substantially all decisions and actions of the Company and have the power to determine all management policy and financing decisions. Thereby, a subscription for Company membership interests bears the risk that the Manager will make decisions detrimental to the success of the Company. Class A Units are passive limited liability company membership interests and will have no "say" in Company decisions. Class A Unit holders must rely on the Manager to act in the best interest of the Company and are bound by any and all of the Manager's decisions regarding all business matters.

ILLIQUIDITY

A purchase of Class A Units should be viewed as an illiquid investment. There is no public market for the Class A Units and none is expected to develop. Each purchaser should have the financial ability and willingness to accept significant financial risks and lack of liquidity for an indefinite period of time. The sale of the Class A Units offered by this Memorandum is not being registered under the Securities Act of 1933, as amended, or under any state securities laws, and the Class A Units may not be resold or otherwise transferred unless they are subsequently registered or an exemption from applicable registration requirements is available. In addition, the Manager must approve and consent to any transfer of Company Units, whether Class A Units or Class B Units. The Manager reserves the right to withhold consent to the transfer of Company Units for any reason.

DEVELOPMENT OF BUSINESS, IMPROVEMENTS, GOVERNMENTAL APPROVALS

The initial development of the Business and the construction of any improvements are subject to a number of factors outside the control of the Company including problems with contractors and permitting and approvals from governmental authorities. Any of these factors could significantly delay the start of and prevent the Business from operating, which could result in the loss of all the investment capital.

ILLIQUIDITY OF REAL ESTATE INVESTMENTS

Real estate investments are not as liquid as other types of investments, and this lack of liquidity may limit our ability to react promptly to changes in economic, financial, investment or other conditions. In addition, significant expenditures associated with real estate investments, such as mortgage payments, real estate taxes and maintenance costs, are generally not reduced when circumstances cause a reduction in income from the investments. Thus, our ability at any time to sell assets or contribute assets to property funds or other entities in which we have an ownership interest may be restricted. This lack of liquidity may limit our ability to vary our portfolio promptly in response to changes in economic financial, investment or other conditions and, as a result, could adversely affect our financial condition, results of operations, and cash flows.

Our ability to dispose of properties on advantageous terms depends on factors beyond our control, including competition from other sellers and the availability of attractive financing for potential buyers of the properties we acquire. We cannot predict the various market conditions affecting real estate investments which will exist at any particular time in the future. Due to the uncertainty of market conditions which may affect the future disposition of the properties we acquire, we cannot assure our Members that we will be able to sell such properties at a profit in the future. Accordingly, the extent to which our Members will receive cash distributions and realize potential appreciation on our real estate investments will be dependent upon fluctuating market conditions. Furthermore, we may be required to expend funds to correct defects or to make improvements before a property can be sold. We cannot assure our Members that we will have funds available to correct such defects or to make such improvements. In acquiring a property, we may agree to restrictions that prohibit the sale of that property for a period of time or impose other restrictions, such as a limitation on the amount of debt that can be placed or repaid on that property. These provisions would restrict our ability to sell a property.

Since real estate investments are relatively illiquid, the Company's ability to promptly sell developed assets in response to changing economic, financial and investment conditions may be limited. In particular, these risks could arise from weakness in or even the lack of an established market for a property, changes in the financial condition or prospects of prospective purchasers, changes in local, regional national or international economic conditions, and changes in laws, regulations or fiscal policies of jurisdictions in which the property is located. The Company may be unable to realize its investment objectives by sale, other disposition or refinance at attractive prices within any given period of time or may otherwise be unable to complete any exit strategy.

LEASE TERMS EFFECT VALUE

Should the Company lease its real estate properties, the terms of any such new or renewal leases may be less favorable to the Company than the previous lease terms. Certain significant expenditures that the Company, as a landlord, may be responsible for, such as mortgage payments, real estate taxes, utilities and maintenance costs generally are not reduced as a result of a reduction in rental revenues. If lease rates for new or renewal leases are substantially lower than those for the previous leases, the Company's rental income might suffer a significant reduction that may result in materially adverse effects on operations and profits. Additionally, the Company may not be able to sell a property at the price, on the terms or within the time frame it may seek. Accordingly, the timing of liquidation of the Company and the extent to which Members may receive distributions and realize potential appreciation on the Company's real estate investments may be dependent upon fluctuating market conditions. The price the Company obtains from the sale of a property will depend upon various factors such as the property's operating history, demographic trends in the property's locale and available financing for, and the tax treatment of, real estate investments. The Company may not realize significant appreciation and may even incur losses on its properties and other investments. The recovery of any portion or all of a Member's investment and any potential return thereon will depend on the amount of net proceeds the Company is able to realize from a sale or other disposition of its properties.

PROPERTY LIABILITIES

The Company intends to perform appropriate due diligence for each property or other real estate related investment it acquires. The Company also will seek to obtain appropriate representations and indemnities from sellers in respect of such properties or other investments. The Company may, nevertheless, acquire properties or other investments that are subject to uninsured liabilities or that otherwise have problems. In some instances, the Company may have only limited or perhaps even no recourse for any such liabilities or other problems or, if the Company has received indemnification from a seller, the resources of such seller may not be adequate to fulfill its indemnity obligation. As a result, the Company could be required to resolve or cure any such liability or other problems, and such payment could have an adverse effect on the Company's cash flow available to meet other expenses or to make distributions to Members.

UNINSURED LOSSES

The Property is located in a geographic area that may be at risk due to damage to property from certain weather-related and/or environmental risks, including but not limited to snow and ice storms, thunderstorms, tornados, and flooding. The Manager will attempt to assure that all of the Company's properties are comprehensively insured (including liability, fire, tornado, flooding, snow and ice damage, and extended coverage) in amounts sufficient to permit replacement in the event of a total loss, subject to applicable deductibles. However, to the extent of any such deductible and/or in the event that any of the Company's properties incurs a casualty loss which is not fully covered by insurance, the value of the Company's assets will be reduced by any such loss. Also, certain types of losses, generally of a catastrophic nature, resulting from, among other things, earthquakes, floods, hurricanes, tornados, extreme weather, or terrorist acts may not be insurable or even if they are, such losses may not be insurable on terms commercially reasonable to the Company. Further, the Company may not have a sufficient external source of funding to repair or reconstruct a damaged property; there can be no assurance that any such source of funding will be available to the Company for such purposes in the future.

ENVIRONMENTAL REGULATIONS AND LIABILITIES

Federal, state and local laws and regulations impose environmental controls, disclosure rules and zoning restrictions which directly impact the management, development, use, and/or sale of real estate. Such laws and regulations tend to discourage sales and leasing activities and mortgage lending with respect to some properties, and may therefore adversely affect the Company specifically, and the real estate industry in general. Failure by the Company to uncover and adequately protect against environmental issues in connection with an investment may subject the Company to liability as the buyer of such property or asset. Environmental laws and regulations impose liability on current or previous real property owners or operators for the cost of investigating, cleaning up or removing contamination caused by hazardous or toxic substances at the property.

The Company may be held liable for such costs as a subsequent owner and developer of such property. Liability can be imposed even if the original actions were legal and the Company had no knowledge of, or was not responsible for, the presence of the hazardous or toxic substances. The Company may also be held responsible for the entire payment of the liability if the Company is subject to joint and several liability and the other responsible parties are unable to pay. Further, the Company may be liable under common law to third parties for damages and injuries resulting from environmental contamination emanating from the site, including the presence of asbestos containing materials. Insurance for such matters may not be available.

TERRORIST ATTACKS OR OTHER ACTS OF VIOLENCE OR WAR

Terrorist attacks may harm the Company's results of operations and a Member's investment. There can be no assurance that there will not be more terrorist attacks against the United States or U.S. businesses. These attacks or armed conflicts may directly or indirectly impact the value of the property the Company owns or that secure its loans. Losses resulting from these types of events may be uninsurable or not insurable to the full extent of the loss suffered. Moreover, any of these events could cause consumer confidence and spending to decrease or result in increased volatility in the United States and worldwide financial markets and economy. They could also result in economic uncertainty in the United States or abroad. Adverse economic conditions resulting from terrorist activities could reduce demand for space in the Company's properties due to the adverse effect on the economy and thereby reduce the value of the Company's properties.

GEOGRAPHIC RISKS

The Company intends to develop and sell real estate assets within specific geographic markets. If the commercial or residential real estate markets or general economic conditions in this geographic area decline, the Company may experience a greater rate of default by tenants on their leases with respect to properties in these areas and the value of the properties in these areas could decline. Any of these events could materially adversely affect the Company's business, financial condition or results of operations.

GOVERNMENTAL REGULATION

The Business will be subject to licensing and regulation by health, sanitation, safety and fire agencies in the state, county and/or municipality in which the property is located. The Company does not anticipate any difficulties or failures in obtaining the required licenses or approvals that could delay or impair projected Business operations, but there can be no assurance that the Company will not experience material difficulties or failures that could impair the operations of the Property development described herein.

The Company is subject to federal and state environmental regulations. More stringent and varied requirements of local and state governmental bodies with respect to zoning, land use and environmental factors could delay or prevent development.

The Business is subject to the Fair Labor Standards Act, which governs such matters as minimum wages, overtime, and other working conditions, along with the Americans with Disabilities Act, various family leave mandates, and a variety of other laws enacted, or rules and regulations promulgated, by federal, state and local government authorities that govern these and other employment matters. Although the Business expects increases in payroll expenses as a result of federal, state and local mandated increases in minimum wage, and although such increases are not expected to be material, there can be no assurance that there will not be material increases in the future. However, the Business's vendors, including contractors who may provide construction services in connection with the development of the Property, also may be affected by higher minimum wage standards, which may result in increases in the prices of goods and services supplied to the Business.

NO TAX DISTRIBUTIONS

The Company does not intend to distribute cash to Members in amounts at least sufficient for the Members to pay for income tax liability associated with their ownership of Class A Units, being equity interests in a business entity that is taxed as a partnership, unless there is sufficient cash available for such distributions as determined by the Manager. In the event the Company does not make cash distributions to the Members in such amounts as are sufficient for the Members to pay their tax liabilities, the Members would have to pay such tax liabilities from other non-Company sources of cash, including the Members' own cash, "out of pocket".

OTHER RISK FACTORS

Other risk factors that could cause the Company's and the Business's actual results to differ materially from those indicated in the forward-looking statements include, without limitation, changes in economic conditions, governmental monetary policies, changes in demographic trends, availability of employees, terrorist acts, and weather and other acts of God.

IX. CERTAIN INCOME TAX RISKS AND CONSEQUENCES

The following is a summary of the principal federal income tax considerations relating to the Company's anticipated treatment as a partnership for federal income tax purposes. The Company hereinafter is sometimes referred to as a partnership and a prospective purchaser of Class A Units as a Member is sometimes referred to as a partner. The following discussion is not comprehensive, and no attempt has been made in the following discussion to comment on all tax matters that may affect the partners. Each prospective purchaser should also carefully consider the income tax consequences of individual participation in the Company. It should be noted that the law, regulations, and administrative rulings with respect to federal income tax matters are subject to change at any time and from time to time by Congress, the Treasury Department and the Internal Revenue Service ("IRS"), and that interpretations of such laws and regulations now in effect are also subject to change by court decisions. Subsequent changes in the tax laws may cause the tax consequences to vary substantially from the consequences described below and may have retroactive effect. There can be no assurance that the IRS or a court will agree with the following discussion or any of the positions taken by the Company for federal income tax reporting purposes. It must be emphasized that a tax ruling has not been sought from the IRS with respect to any of the tax matters set forth in this Memorandum, nor is such a request contemplated.

ACCORDINGLY, EACH PROSPECTIVE PURCHASER IS URGED TO CONSULT HIS OWN TAX ADVISOR WITH RESPECT TO HIS OWN TAX SITUATION, INCLUDING THE APPLICATION AND EFFECT OF STATE, LOCAL, OR FOREIGN TAX LAWS OR ANY POSSIBLE CHANGE IN THE TAX LAWS AFTER THE DATE HEREOF.

CLASSIFICATION AS A PARTNERSHIP

The tax and other economic benefits to be derived from a purchase of Class A Units in the Company depend, in part, upon the Company being treated as a partnership for federal income tax purposes. On the basis of the Internal Revenue Code of 1986, as amended (the "Code"), the existing and proposed regulations promulgated there under (the "Treas. Regs."), and current administrative rulings and court decisions, all of which are subject to change, the Company should be classified as a partnership for federal income tax purposes and not as an association taxable as a corporation.

If the company is classified as a partnership, then the company itself will be disregarded as a taxable entity and each item of "partnership" income, gain, loss, deduction and credit will flow through to the individual partners for inclusion in their individual income tax returns. Under the Code and the applicable Treasury Regulations, an organization which qualifies as a partnership under state law and which is not subject to taxation as a corporation under Code §7704(a) generally is classified as a partnership for federal income tax purposes if it does not elect to be classified for such purposes as a corporation. Prior to promulgation of Treasury Regulations §301.7701-2 and §301.7701-3, classification as a partnership for federal income tax purposes was dependent upon whether the organization had a preponderance of enumerated corporate characteristics. New regulations issued in 1997 simplified the classification issue. The Company's "partnership representative" will attempt to take any actions they determine are appropriate under the regulations to ensure partnership classification.[1]

FEDERAL TAXATION OF A PARTNERSHIP AND ITS PARTNERS

If taxed as a partnership as we anticipate, the Company itself will not be subject to any federal income taxes. Instead, each Member will be required to take into account in computing his federal income tax liability, his distributive share of all Company income, gain, loss, deduction and credit, including items of tax

[1] Following the Bipartisan Budget Act of 2015, Pub. L No. 114-74 ("BBA", the Company must appoint by majority vote a "partnership representative," who will remain as the partnership representative until resignation or upon majority vote of the Company.

preference, for the taxable year of the Company ending within or with the taxable year of the Member, whether or not he or she has received or will receive any cash distributions from the Company. Therefore, it is possible that a Member would be allocated taxable income or gain (i) even though the Member receives no cash distributions from the Company or (ii) greater than the amount of cash distributed to such Member from the Company.

The Company will file an annual partnership information income tax return reporting its operations for each fiscal year and each Member will be provided with the necessary federal income tax information to report his or her respective share of the Company items.

ALLOCATION OF PROFITS AND LOSSES FOR TAX PURPOSES

Each Partner's distributive share of items of income, gain, loss, deduction and credit of the Company for federal income tax purposes will be determined in accordance with the allocation thereof set forth in the Operating Agreement.

Net income and net loss of the Company will be generally allocated each Fiscal Year among the Members in a manner such that the Capital Account Balance of each Member immediately after making such allocations will equal as nearly as possible the Distributions that would be made to each member if the Company were dissolved, its affairs wound up, its assets sold for cash and its liabilities satisfied. This method of allocation is sometimes referred to as the "Targeted Capital Account Method." No losses will be allocated to a Member which would cause that Member's capital account to become negative.

Generally, the allocations of taxable income and loss will not differ from the Members' interests in the Company. Section 704(b) of the Code provides that an allocation which deviates from the partners' actual interests in a partnership will not be recognized for federal income tax purposes unless it has substantial economic effect. In essence, this requirement looks to whether a partner who benefits from a special allocation also bears the economic cost and risk of such allocation. The treasury regulations establish tests which examine the economic effect of an allocation and the substantiality of the effect.

To meet the economic effect test of the Treasury Regulations, the Company must (1) properly maintain its capital accounts, (2) distribute proceeds upon liquidation in accordance with the Member's capital account balances, and (3) upon the distribution of such proceeds, require the Members to restore to the Company the amount of any deficit in their capital accounts. The economic effect of an allocation is substantial under the Treasury Regulations if there is a reasonable possibility that the allocation will affect substantially the dollar amounts to be received by the Members from the Company, independent of tax consequences.

The alternate test for economic effect of the Treasury Regulations is satisfied if the Company must (1) properly maintain its capital accounts, (2) distribute proceeds upon liquidation in accordance with the Member's capital account balances, and (3) the partnership agreement contains a qualified income offset.

If these tests are not satisfied, the IRS may challenge any sharing arrangements contemplated by the Operating Agreement and seek to reallocate the Members' distributive shares of tax items according to their "actual interests" in the Company.

The "Targeted Capital Account Method" of allocation does not technically meet the aforementioned tests. However, it is believed that the allocations will be consistent with the Members' actual interests in the Company.

The determination of the Members' actual interests in the Company is an important inquiry for two related reasons. First, the presence of special allocations may or may not correspond to the true overall economic arrangements among the Members. Throughout the treasury regulations, the effect of the sharing arrangements provided for in the Operating Agreement is compared to the Member's true economic relationships. Treas. Reg. §1.704-1(b)(3) provides guidance for determining the actual interests of the Members. Second, if such a comparison of allocated and actual interests leads to the conclusion that the special allocations do not accurately reflect economic reality, the same guidelines must be consulted in order to properly reallocate tax items. Under Treas. Reg. §1.704-1(b)(3), a partner's actual interest in a partnership is determined by taking into account all the facts and circumstances relating to the economic arrangements of the partners. The Members' interests are presumed to be equal unless proven otherwise. The factors to be considered in determining actual interests include (1) the Members' relative contributions to the Company, (2) the interests of the Members in economic profits and losses (if different from that in taxable income or loss), (3) the interests of the Members in cash flow and other non-liquidating distributions, and (4) the rights of the Members to distributions of capital upon liquidation. If the IRS applied these factors in a challenge of the Company's sharing arrangements, it might alter the tax consequences to the Members. It is not possible to evaluate with certainty the strength of any such possible challenge by the IRS, however, because the regulations provide little guidance with respect to the weight assigned to each of the four factors considered when determining the Member's actual interest in a partnership.

CALCULATION OF PARTNERS' ADJUSTED TAX BASIS

The amount of any Members loss or deduction that a Member may be allowed in computing his federal income tax liability and that may be offset against his income from other sources is limited to the "adjusted tax basis" of his interest in the Company at the end of the Company's taxable year in which such loss or deduction was incurred. A Member's adjusted tax basis in his interest is determined initially by his capital contributions to the Company plus his proportionate share of nonrecourse indebtedness to which Company property is subject, limited to the fair market value of the property securing such indebtedness. The Company may have certain nonrecourse indebtedness. A Member's basis will be increased by his distributive share of the Company's taxable income and decreased (but not below zero) by (i) his distributive share of the Company's distributions (including, for this purpose, his proportionate share of decreases in nonrecourse indebtedness, if any) and (ii) his distributive share of Company losses. To the extent that losses of the Company are allocated to the Members in excess of their tax basis, the losses may only be deducted by the Members in a subsequent year to the extent that their tax basis has been increased at the end of such year. If the tax basis of a Member is reduced to zero, the amount of any distributions (including any reduction in his share of nonrecourse indebtedness, if any) in excess of his share of the income reported by the Company for any year will be treated as gain from the sale or exchange of the Membership Interest.

LIMITATION OF DEDUCTIONS TO AMOUNT AT RISK

Section 465 of the Code limits the amount of loss which a partner may deduct to the amount the taxpayer has "at risk." For the purpose of computing this limitation, the amount "at risk" is limited to the amount of money and the adjusted basis of other property the taxpayer has contributed to the particular activity and amounts borrowed for use in the activity to the extent the taxpayer is personally liable for repayment of such borrowed amount, all as calculated at the end of the taxable year. Since the Members will not be personally liable for the Company liabilities, their "at risk" amount will be limited to their cash contribution to the Company.

If a taxpayer's amount "at risk" is reduced below zero certain previously allowed losses will be recaptured and recognized as income. The amount recaptured will be reduced by income from the activity. A reduction in the "at risk" amount can result from the shift of recourse to nonrecourse debt, the entry into a guarantee or stop loss arrangement, or the payment of recourse liabilities from cash flow in excess of taxable income.

PASSIVE ACTIVITY INCOME AND LOSS

Section 469 of the Code provides that losses from a passive activity cannot be used to offset other income such as salary, interest, dividends, and active business income, but may be used to offset income from passive activities. Passive activities include trade or business activities in which the taxpayer (or spouse) is not involved on a regular, continuous and substantial basis and rental activities where payments are primarily for the use of tangible property. Except as provided in the regulations, generally no interest in a partnership as a partner will be treated as an interest with respect to which a taxpayer materially participates. Thus, all losses allocated to the partners, if any, will likely be treated as losses from a passive activity.

Furthermore, except with respect to interest earned on temporary investments, any income from the partnership allocated to the partners should be treated as income from a passive activity. As such, Members with excess losses from other passive activities may be able to use those losses to offset income from the Company.

NET INVESTMENT INCOME TAX

The Net Investment Income Tax (NIIT) is imposed by section 1411 of the Internal Revenue Code. The NIIT applies at a rate of 3.8% to certain net investment income of individuals, estates and trusts that have income above the statutory threshold amounts.

Individuals will owe the tax if they have Net Investment Income and also have modified adjusted gross income over the following thresholds:

Filing Status	**Threshold Amount**
Married filing jointly	$250,000
Married filing separately	$125,000
Single	$200,000
Head of household (with qualifying person)	$200,000
Qualifying widow(er) with dependent child	$250,000

Modified adjusted gross income for most individuals is equal to adjusted gross income.

In general, investment income includes, but is not limited to, interest, dividends, capital gains, rental and royalty income, non-qualified annuities, income from businesses involved in trading of financial instruments or commodities and businesses that are passive activities to the taxpayer (within the meaning of section 469). To calculate Net Investment Income, investment income is reduced by certain expenses properly allocable to the income.

To the extent that gains are not otherwise offset by capital losses, the following gains are taken into account in computing Net Investment Income: gains from the sale of interests in partnerships and S corporations (to the extent the partner or shareholder was a passive owner).

In order to arrive at Net Investment Income, Gross Investment Income is reduced by deductions that are properly allocable to items of Gross Investment Income. Examples of deductions, a portion of which may be properly allocable to Gross Investment Income, include investment interest expense, investment advisory and brokerage fees, expenses related to rental and royalty income, tax preparation fees, fiduciary expenses (in the case of an estate or trust) and state and local income taxes.

METHOD OF DEPRECIATION AND ACCOUNTING

The Company may engage a cost segregation specialist to identify the extent to which we may claim bonus depreciation under the 2017 Tax Cuts and Jobs Act. Accordingly, the Company may depreciate assets to take advantage of all options with accelerated depreciation. The Company may adopt a hybrid method of accounting pursuant to Treas. Reg. 1.446-1(c)(I)(iv) for both reporting and income tax purposes. Under this method, the Company would account for purchases and sales using the accrual method and all other items of income and expenses will be reported using the cash method. The Company may be leasing much of its furniture and equipment and will determine the method for deducting such costs in accordance with the Internal Revenue Code depending on whether such leases are determined to be capital leases or operating leases.

CERTAIN OTHER EXPENSES

The Company has incurred costs in connection with the organization of the Company and will incur additional expenses associated with offering the Class A Units. Organization expenses are those costs incident to the creation of a company that are properly capital charges and would be amortizable if the Company had an ascertainable life. These include primarily legal fees in connection with the negotiation and preparation of the Organizational Documents. The Company may elect to amortize these costs over a period of 60 months as permitted by Section 709(b) of the Internal Revenue Code. Costs attributable to the offering of membership interests may not be deducted currently. The Company may also elect to amortize certain travel, professional and other pre-developmental costs over a period of 60 months as permitted under Section 195 of the Internal Revenue Code. The amortization of expenses in this manner is not compliant with generally accepted accounting principles ("GAAP").

SALE OR OTHER DISPOSITION OF MEMBERSHIP (PARTNERSHIP) INTERESTS

Gain or loss realized on the sale or exchange of a membership interest in an entity taxed as a partnership owned for more than one year will generally be taxable as long-term capital gain unless the member is deemed to be a dealer in such membership interests. The gain will be measured by the difference between his adjusted cost basis for the partnership interest and the amount realized upon the sale.

For this purpose and as noted above, the Member's basis includes his share of Company liabilities, if any, with respect to which neither the Company nor any Member is personally liable. On any such sale the Member's ratable share of any such nonrecourse indebtedness is treated as the amount realized from the sale.

Gain or loss realized on the sale or exchange will be treated as ordinary income to the extent of any Section 751 property. If the Member is deemed to hold the membership interest for investment purposes (and not as a dealer) the principal item of Section 751 property would be his share of the depreciation which would have been recaptured as ordinary income under Section 1245 of the Code if the Company's property had been sold or exchanged in a taxable transaction. All depreciation previously claimed with respect to the Company's personal property will be subject to recapture.

ADJUSTMENT OF COST BASIS OF COMPANY ASSETS

The Company, at the request of a Member who is transferring his membership interest but in the discretion of the Manager, may make the election permitted under Section 754 of the Code to have the cost basis of its assets adjusted (as to the transferee Member) in the case of a distribution of property or in the case of a transfer of any membership interest or portion thereof. Such election, if made, initially will affect only the transferee Member by requiring an adjustment in the basis of Company property which will reflect the difference between the cost to him of his membership interest and his proportionate share of the Company's basis for its underlying property. Once the election under Section 754 is made, it is applicable to all other transfers in that year and in subsequent years and may not be revoked without the consent of the I.R.S.

Such adjustment will not directly affect the initial Members but may produce a difference in the amount of depreciation deductions, gains, or losses on sales and other dispositions of Company property by the transferee Member, and the amount thereof reportable by the other Members. For example, if a transferee Member pays more for his membership interest than his pro-rata share of the Company's basis for its underlying property and the election is made, his depreciation deductions and losses on sales and exchanges of Company property generally will be greater than the amount reported by Members who paid less for their membership interest. Conversely, if a transferee Member pays less for his membership interest than his pro rata share of the Company's basis for its underlying property and the election is made, then his depreciation deductions and losses on sales and other dispositions of Company property generally will be less than the amount reportable by other Members.

PRESUMPTION OF PROFIT INTENT

Section 183 of the Code provides a limitation upon deductions attributable to "an activity not engaged in for profit." If an activity is deemed not to be engaged in for profit, deductions are limited to the amount of deductions allowable without regard to whether a trade or business is being conducted (such as interest and real estate taxes) plus the amount of other deductions up to a total of the gross income derived from the activity. The determination of whether an activity is engaged in for profit is a factual determination which is based on all of the circumstances of a particular case.

PROCEDURE FOR AUDIT OF PARTNERSHIP

The Internal Revenue Code contains special procedures for the audit of a company by the Internal Revenue Service. All such audits will be at the company level and no deficiency will be assessed against an individual partner until the correctness of any challenge by the Service to a company's tax return is determined at the administrative or judicial level.

The Company will provide for one of the Class B-1 Members to serve as the partnership representative. It will keep all Members informed as to the status of any audit, the terms of any proposed settlement, and the procedures by which a Member may opt out of such a settlement. Any such event may result in the Company's income and therefore items of income, gain, loss and credit allocated to each of the Members being adjusted. Any such adjustment will require the Members to file amended individual returns for the years involved and may also result in an audit to each Member's individual tax returns.

LIQUIDATION OR TERMINATION OF THE COMPANY

Upon the termination or liquidation of the Company, gain will be recognized only to the extent that money distributed to a Member, including the reduction in each Member's share of Company liabilities, exceeds the adjusted basis of his membership interest. Losses on termination or liquidation will not be recognized unless the Member receives only money and certain unrealized receivables in distribution, and these losses will be recognized only to the extent that the money and the basis of the receivables are less than the Member's adjusted basis of his membership interest.

Generally, upon termination or liquidation of the Company, any gain or loss recognized by the Members will be capital gain or loss. However, to the extent that gain realized is attributable to Section 751 property, generally unrecognized receivables and excess depreciation deductions, the gain will be taxed as ordinary income. In addition, as discussed in "Sale or Other Disposition of Partnership Interests," a long-term capital gain may, in some cases, be subject to re-characterization as ordinary income.

ALTERNATIVE MINIMUM TAX

Potential investors are also subject to the alternative minimum tax provisions of Section 55 of the Internal Revenue Code. The tax is payable if it exceeds the regular tax otherwise payable for the year a portion of the annual depreciation on the Company's personal property will be a tax preference item. Tax preference items also include, among other things, accelerated depreciation on real property and certain personal property, certain tax-exempt bond interest and certain losses from passive trades and businesses. EACH PROSPECTIVE INVESTOR SHOULD CONSULT HIS TAX ADVISOR TO DETERMINE WHETHER HE WILL BE SUBJECT TO THE ALTERNATIVE MINIMUM TAX BEFORE HE DECIDES TO PURCHASE A CLASS A UNIT.

STATE AND LOCAL INCOME TAX CONSEQUENCES

In addition to the federal income tax consequences described above, prospective purchasers should consider any state and local tax consequences of a purchase in the Company. The Company will be subject to certain margin, sales, and property taxes. Each purchaser should contact his personal tax advisor for additional information.

PENSION PROFIT SHARING PLAN CONSIDERATION

If an interest in the Company is, at any time, acquired by a tax-exempt retirement plan or other tax-exempt entity, any taxable income realized from the Company will likely be treated as unrelated business taxable income and be subject to tax in the hands of the tax-exempt entity.

IMPORTANCE OF OBTAINING PROFESSIONAL ADVICE

The foregoing analysis is not intended as a substitute for careful tax planning. The tax matters relating to the Company and the transactions described herein are complex and are subject to varying interpretations. Moreover, the effect of existing income tax laws and possible changes in such laws will vary with the particular circumstances of each investor. In addition, no legal opinion as to the tax consequences of an investment in the Company has been obtained by the Company. Each prospective investor should consult with and rely on his own advisors with respect to the possible tax consequences of an investment in the Company.

IX. PLAN OF DISTRIBUTION

PURCHASER SUITABILITY STANDARDS

The Class A Units offered hereby are suitable only for a purchaser (i) whose business and investment experience, either alone or together with a purchaser representative, makes the purchaser capable of evaluating the merits and risks of the prospective purchase in the Company, and (ii) who can afford to bear the economic risk of such purchase for an indefinite period and has no need for liquidity in such purchase. Each purchaser will be required to represent, among other things, that the purchaser (i) is acquiring the Class A Units for the purchaser's own account, as principal, and not with a view to resale or distribution; (ii) is aware that transfer of the Class A Units may be restricted by the Securities Act of 1933, as amended (the "Securities Act"), applicable state securities laws, the Operating Agreement, and the absence of a market for the Class A Units; and (iii) has carefully read this Memorandum and all exhibits hereto and has evaluated, understands and is capable of bearing the economic risk, including the complete loss, of the purchaser's purchase (See "CERTAIN RISK FACTORS").

Each prospective purchaser will also be required to represent, among other things, that the purchaser: (i) is an Accredited Investor (as defined below); (ii) does not have overall commitments to purchases of private securities that are not readily marketable (including the Class A Units) that would cause such overall commitments to become disproportionate to the purchaser's net worth; (iii) has adequate net worth and means to sustain a complete loss of the purchase in the Company and has no need for liquidity in the purchase in the Company; and (iv) has evaluated the risks of purchasing Class A Units in the Company. The Company may refuse to admit any prospective purchaser who does not meet the suitability standards or for any other reason or no reason.

If applicable and required, this offering is intended to be conducted as a private placement under Section 4(a)(2) of the Securities Act and will be made primarily to "Accredited Investors" as that term is defined in Rule 501(a) of Regulation D promulgated under the Securities Act (individually an "Accredited Investor" and collectively the "Accredited Investors").

The Class A Units will be offered solely in reliance on the exemption from U.S. federal securities registration found in Regulation D Rule 506(b) and corresponding state-level securities registration ("Blue Sky") exemptions. The Company intends to conduct the current offering of Class A Units authorized for sale hereby in reliance on Rule 506(b) for a certain period of time, and then close the current round. Thereafter, the Company intends to conduct a second (2^{nd}) offering of the unsold Class A Units whereby it will instead rely on Rule 506(c) of Regulation D and sell the unsold Class A Units to one or more qualified third party "accredited investors" ONLY.

The Company may also accept subscriptions from a limited number of purchasers who are not Accredited Investors, but in no event, more than 35 non-accredited investors. Accordingly, with limited exceptions, each purchaser must meet at least one of the following requirements to qualify as an "Accredited Investor":

i. The purchaser is a natural person whose net worth (i.e., total assets in excess of total liabilities), individually or jointly with spouse, exceeds $1,000,000 (exclusive of the value of the purchaser's primary residence); or

ii. The purchaser is a natural person whose personal income exceeded $200,000 (or joint income with such purchaser's spouse exceeded $300,000) for each of the past two years and who reasonably expects the same level of income for the current year; or

iii. The purchaser is a trust with total assets in excess of $5,000,000 not formed for the specific purpose of acquiring a Class A Unit and whose purchase is directed by a sophisticated person as described in Rule 506(b)(2)(ii) of Regulation D; or

iv. The purchaser is an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, a corporation, a Massachusetts or similar business trust or a Company, not formed for the specific purpose of acquiring a Class A Unit, with total assets in excess of $5,000,000; or

v. The purchaser is a bank, savings and loan association or any other institution defined in Section 3(a)(5)(A) of the Securities Act acting in its individual or fiduciary capacity, a registered broker or dealer, an insurance company, a registered purchase company, a business development company, a licensed Small Business Investment Company, an employee benefit plan (if the purchase decision is made by a plan fiduciary which is either a bank, savings and loan association, insurance company or registered purchase advisory or if the employee benefit plan has total assets in excess of $5,000,000) or, if a self-directed plan, with purchase decisions made solely by persons who are Accredited Investors, or a private business development company; or

vi. The purchaser is an entity (e.g. a corporation, company, partnership, or trust) all of the owners of which meet the requirements of categories i, ii, iii, iv, or v above.

Unless the Company is satisfied that a prospective purchaser meets the Accredited Investor standards or general requirements listed above, or any other requirement that the Company chooses to establish, no subscription will be accepted from such prospective purchaser. If the purchaser is not an Accredited Investor and is relying on a purchaser representative to evaluate the merits and risks of a purchase of the Class A Units, the purchaser representative will also be required to complete a Purchaser Representative Questionnaire.

COSTS AND TIMING OF OFFERING

The Company, acting through its Manager and its officers, is responsible for placing the Class A Units offered hereby with purchasers. No underwriter or placement agent is involved with this Offering. The Company will pay all of the expenses of this Offering out of its working capital, which may include the offering proceeds from the Class A Units. Those expenses are expected to consist of at least the following:

Administrative/Filing	$2,500
Blue Sky Law Compliance	$2,500
Legal Fees	$25,000

The Company intends to raise equity to fund the projected costs associated with the Business through its sale of up to Nine Hundred Seventy-Five Thousand (975,000) of its Class A Units at a per unit price of One Dollar ($1.00) for aggregate offering proceeds of up to $975,000. Subscriptions must be accepted in writing by the Company and will be accepted by the Company, by and through its Manager, from time to time during the Offering period. This Offering will continue indefinitely until terminated in the sole discretion of the Company, and in accordance with the timelines set forth herein.

SUBSCRIPTION PROCEDURES

Each prospective purchaser is being furnished with a copy of this Memorandum (including all exhibits hereto) together with a separate subscription package, which includes execution copies of the documents described below. Each prospective purchaser who decides to subscribe for Class A Units is required to follow the procedures set forth below.

Upon reaching a decision to purchase, each purchaser may subscribe for Class A Units in the manner described as follows:

(i) deliver to the Company at the address, email or facsimile number set forth below a completed Subscription Agreement (in the form attached hereto as **Exhibit "C"**) setting forth the number of Class A Units subscribed for by such purchaser delivered to the addresses or facsimile number set forth below; and

(ii) a wire to the Company's bank account, or check, for the full amount of the subscribed Class A Units.

For wire transfer instructions, contact us via email or phone.

The Subscription Agreement, a form of which is attached hereto as **Exhibit "C"**, requires the purchaser to make certain representations, warranties and covenants, including a representation that such purchaser is acquiring Class A Units for his or her own account and not with a view to the distribution thereof in any transaction that would violate federal or state securities laws.

Each purchaser also will agree not to sell, transfer, pledge, hypothecate or otherwise dispose of any interest in the Company except in accordance with the Operating Agreement and either pursuant to an effective registration statement under the Securities Act and applicable state securities laws or pursuant to an available exemption from registration there under. See "CERTAIN RISK FACTORS - ILLIQUIDITY". No purchaser will have the right to require registration of the Class A Units under the Securities Act and such registration is not contemplated.

The Company reserves the right, at its sole discretion, to reject for any reason any subscription in whole or in part or to allocate to any prospective purchaser less than the number of Class A Units subscribed for by such purchaser.

X. ADDITIONAL DOCUMENTATION AND INFORMATION

The Company intends to make available such additional information as the offeree reasonably requests and to afford offeree the opportunity to ask questions of and receive answers from the Company to the extent the Company possesses such information or can acquire it without unreasonable effort or expense.

Inquiries to the Company should be made to the Manager of the Company to the following address and contact information:
